 - (c) the terms "a Contracting State" and "the other Contracting State" mean Kenya or Sweden as the context requires;

Article III

1. For the purposes of this Convention, the term "resident of a Contracting State" means any person who, under the law of that State, is liable to taxation therein by reason of his domicile, residence, place of management or any other criterion of a similar nature.

2. Where by reason of the provisions of paragraph 1 of this Article an individual is a resident of both Contracting States, then his case shall be determined in accordance with the following rules:
 - (i) he shall be deemed to be a resident of the Contracting State in which he has a home available to him. If he has a home available to him in both Contracting States, he shall be deemed to be a resident of the Contracting State with which his personal and economic relations are closest (centre of vital interests);
 - (ii) if the Contracting State in which he has his centre of vital interests cannot be determined, or if he has not a home available to him in either Contracting State, he shall be deemed to be a resident of the Contracting State in which he has an habitual abode;
 - (iii) if he has an habitual abode in both Contracting States or in neither of them, he shall be deemed to be a resident of the Contracting State of which he is a national;

3. Where by reason of the provisions of paragraph 1 of this Article a person other than an individual is a resident of both Contracting States, then it shall be deemed to be a resident of the Contracting State in which its place of effective management is situated.

Article IV

1. The profits of a Kenyan enterprise shall not be subject to Swedish tax unless the enterprise carries on a trade or business in Sweden through a permanent establishment situated therein. If it carries on a trade or business as aforesaid, tax may be imposed on those profits by Sweden, but only on so much of them as is attributable to that permanent establishment.

2. The profits of a Swedish enterprise shall not be subject to Kenyan tax unless the enterprise carries on a trade or business in Kenya through a permanent establishment situated therein. If it carries on a trade or business as aforesaid, tax may be imposed on those profits by Kenya, but only on so much of them as is attributable to that permanent establishment.

3. Where an enterprise of a Contracting State carries on a trade or business in the other Contracting State through a permanent establishment situated therein, there shall be attributed to that permanent establishment the profits which it might be expected to derive in that other State if it were an independent enterprise engaged in the same or similar activities under the same or similar conditions and dealing at arm's length with the enterprise of which it is a permanent establishment and the profits so attributed shall be deemed to be income derived from sources in that other State.
4. If an enterprise of a Contracting State, which has a permanent establishment in the other Contracting State, sells goods or merchandise otherwise than through the permanent establishment of the same or similar kind as those sold by the permanent establishment, or renders otherwise than through the permanent establishment services of the same or similar kind as those rendered by the permanent establishment, the profits of such activities may be attributed to the permanent establishment unless the enterprise proves that such sales or services are not attributable to the activity of the permanent establishment.
5. In the determination of the profits of a permanent establishment, there shall be allowed as deductions expenses which are incurred for the purposes of the permanent establishment including executive and general administrative expenses so incurred, whether in the State in which the permanent establishment is situated or elsewhere, but this does not include any expenses which, under the law of that State, would not be allowed to be deducted by an independent enterprise of that State.
6. For the purposes of the preceding paragraphs, the profits to be attributed to the permanent establishment shall be determined by the same method year by year unless there is good and sufficient reason to the contrary.
7. No portion of any profits arising to an enterprise of a Contracting State shall be attributed to a permanent establishment situated in the other Contracting State by reason of the mere purchase of goods or merchandise within that other State by the enterprise.
8. Where profits include items of income which are dealt with separately in other Articles of this Convention, then the provisions of those Articles shall not be affected by the provisions of this Article.

Article V

1. For the purposes of this Convention, the term "permanent establishment" means a fixed place of business in which the business of the enterprise is wholly or partly carried on.
2. The term "permanent establishment" shall include:
 - (a) a place of management;
 - (b) a branch;
 - (c) an office;
 - (d) a factory;
 - (e) a workshop;
 - (f) a mine, oil well, quarry or other place of extraction of natural resources;
 - (g) a farm, plantation or other place where agricultural, forestry, plantation or related activities are carried on;
 - (h) a building site or construction or assembly project which exists for more than six months;
 - (i) the provision of supervisory activities for more than six months on a building site or construction or assembly project.
3. The term "permanent establishment" shall not be deemed to include:
 - (a) the use of facilities solely for the purposes of storage or display of goods or merchandise belonging to the enterprise;
 - (b) the maintenance of a stock of goods or merchandise belonging to the enterprise solely for the purposes of storage or display;
 - (c) the maintenance of a stock of goods or merchandise belonging to the enterprise solely for the purposes of processing by another enterprise;
 - (d) the maintenance of a fixed place of business solely for the purposes of purchasing goods or merchandise, or for collecting information, for the enterprise;

4. A person acting in a Contracting State on behalf of an enterprise of the other Contracting State -- other than an agent of an independent status to whom paragraph 6 applies -- shall be deemed to be a permanent establishment in the first-mentioned State if:
 - (a) he has, and habitually exercises in that State, an authority to conclude contracts in the name of the enterprise, unless his activities are limited to the purchaser of goods or merchandise for the enterprise;
 - or
 - (b) he has no such authority, but habitually maintains in the first-mentioned State a stock of goods or merchandise from which he regularly delivers goods or merchandise on behalf of that enterprise.

5. An insurance enterprise of a Contracting State shall be deemed to have a permanent establishment in the other Contracting State if it collects premiums or insures risks in that other State through an employee or through a representative who is not an agent of an independent status within the meaning of paragraph 6.
6. An enterprise of a Contracting State shall not be deemed to have a permanent establishment in the other Contracting State merely because it carries on business in that other State through a broker, general commission agent or any other agent of an independent status, where such persons are acting in the ordinary course of their business. However, where the activities of such an agent are devoted wholly or mainly to that enterprise he would not be considered an agent of an independent status within the meaning of this paragraph, but in such cases the provisions of paragraph 4 would apply.
7. The fact that a company which is a resident of a Contracting State controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State, (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

Article VI

Where

- (a) an enterprise of a Contracting State participates directly or indirectly in the management, control or capital of any enterprise of the other Contracting State, or
- (b) the same persons participate directly or indirectly in the management, control or capital of an enterprise of a Contracting State and an enterprise of the other Contracting State, and in either case conditions are made or imposed between the two enterprises in their commercial or financial relations which differ from those which would be made between independent enterprises, then any profits which would, but for those conditions, have accrued to one of the enterprises, but by reason of those conditions have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

Article VII

 - (b) the tax chargeable in that other State shall be reduced by 50%.
3. The provisions of paragraph 1 of this Article shall also apply to a share of the profits from the operation of aircraft in international traffic derived by an enterprise of a Contracting State through participation in a pooled service, in a joint air transport operation or in an international operating agency.

Article VIII

1. Dividends paid by a company which is a resident of a Contracting State to a resident of the other Contracting State may be taxed in that other State.
2. However, such dividends may be taxed in the Contracting State of which the company paying the dividends is a resident, and according to the laws of that State, but the tax so charged shall not exceed:
 - (a) 15% of the gross amount of the dividends if the recipient is a company which owns at least 25% of the voting shares of the company paying the dividends during the period of six months immediately preceding the date of payment of the dividends;
 - (b) 25% of the gross amount of the dividends in all other cases.
3. The term "dividends" as used in this Article means income from shares or other rights, not being debt-claims, participating in profits, as well as income from other corporate rights assimilated to income from shares or any other item which is deemed to be a dividend or distribution of a company by the taxation law of the Contracting State of which the company making the distribution is a resident, but does not include any interest or royalties to which Articles IX and X of this Convention apply.
4. The provisions of paragraphs 1 and 2 of this Article shall not apply if the recipient of the dividends, being a resident of a Contracting State, has in the other Contracting State, of which the company paying the dividends is a resident, a permanent establishment with which the holding by virtue of which the dividends are paid is effectively connected. In such a case the provisions of Article IV shall apply.
5. Where a company which is a resident of a Contracting State derives profits or income from the other Contracting State that other State may not impose any tax on the dividends paid by the company to persons who are not residents of that other State, or subject the company's undistributed profits to a tax on undistributed profits, even if the dividends paid or the undistributed profits consist wholly or partly of profits or income arising in that other State.

Taxwise Africa Consulting LLP

6. Dividends paid by a company being a resident of Kenya to a company which is a resident of Sweden shall be exempt from tax in Sweden to the extent that the dividends would have been exempt under Swedish law if both companies had been residents of Sweden. This exemption shall not apply unless the profits out of which the dividends are paid have been subjected in Kenya to the normal income tax which applies at the date of signature of this Convention or an income tax comparable thereto, or the principal part of the profits of the company paying the dividends arises, directly or indirectly, from business activities other than the management of securities and other similar property and such activities are carried on within Kenya by the company paying the dividends or by a company in which it owns at least 25% of the voting power.

Article IX

2. However, such interest may be taxed in the Contracting State in which it arises, and according to the laws of that State, but the tax so charged shall not exceed 15% of the gross amount of the interest.
3. Notwithstanding the provisions of paragraph 2 of this Article, interest arising in a Contracting State and paid to the Government of the other Contracting State or local authority thereof, the Central Bank of that other Contracting State, or any agency wholly owned by that Government or local authority shall be exempt from tax in the first-mentioned Contracting State. The competent authorities of the Contracting States may determine by mutual agreement any other governmental institution to which this paragraph shall apply.

5. The provisions of paragraphs 1 and 2 of this Article shall not apply if the recipient of the interest, being a resident of a Contracting State, has in the other Contracting State in which the interest arises a permanent establishment with which the debt-claim from which the interest arises is effectively connected. In such a case the provisions of Article IV shall apply.
6. Interest shall be deemed to arise in a Contracting State when a payer is that Contracting State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the interest, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment in connection with which the indebtedness on which the interest is paid was incurred, and such interest is borne by that permanent establishment, then such interest shall be deemed to arise in the Contracting State in which the permanent establishment is situated.

Taxwise Africa Consulting LLP

7. Where, owing to a special relationship between the payer and the recipient or between both of them and some other person, the amount of the interest paid, having regard to the debt-claim for which it is paid, exceeds the amount which would have been agreed upon by the payer and the recipient in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount; in that case, the excess part of the payment shall remain taxable according to the law of each Contracting State, due regard being had to the other provisions of this Convention.

4. The provisions of paragraphs 1 and 2 of this Article shall not apply if the recipient of the royalties, being a resident of a Contracting State, has in the other Contracting State in which the royalties arise a permanent establishment with which the right or property giving rise to the royalties is effectively connected. In such a case, the provisions of Article IV shall apply.
5. Royalties shall be deemed to arise in a Contracting State when the payer is that Contracting State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the royalties, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment in connection with which the liability to pay the royalties was incurred and such royalties are borne by such permanent establishment, then such royalties shall be deemed to arise in the Contracting State in which the permanent establishment is situated.
6. Where, owing to a special relationship between the payer and the recipient or between both of them and some other person, the amount of royalties paid, having regard to the use, right or information for which they are paid, exceeds the amount which would have been agreed upon by the payer and the recipient in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount; in that case, the excess part of the payment shall remain taxable according to the law of each Contracting State, due regard being had to the other provisions of this Convention.

In such a case the provisions of Article IV shall apply.
5. Management or professional fees shall be deemed to arise in a Contracting State when the payer is that Contracting State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the management or professional fees, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment in connection with which the liability to pay the management or professional fees was incurred and such management or professional fees are borne by such permanent establishment, then such management or professional fees shall be deemed to arise in the Contracting State in which the permanent establishment is situated.

4. Enterprises of a Contracting State, the capital of which is wholly or partly owned or controlled, directly or indirectly, by one or more residents of the other Contracting State, shall not be subjected in the first-mentioned Contracting State to any taxation or any requirement connected therewith which is other or more burdensome than the taxation and connected requirements to which other similar enterprises of that first-mentioned State are or may be subjected.

Article XXIV

1. Any taxpayer who shows that the action of the taxation authorities of one or both of the Contracting States has resulted or will result in taxation which is contrary to the provisions of this Convention, may lodge a claim with the competent authority of the Contracting State of which he is a resident. Should the claim be upheld, that competent authority may come to an agreement with the competent authority of the other Contracting State with a view to the avoidance of such taxation.
2. The competent authorities of the Contracting States may likewise come to an agreement for the purpose of overcoming double taxation in cases not otherwise provided for by this Convention, as well as in cases where the interpretation or the application of this Convention gives rise to difficulties or doubts.
